

How can I help the Faith House project?

The future begins with “prime movers” and this project needs more of them. Prime movers are individuals and structures that understand that the good and right we enjoy today began with someone taking a risk. People and organizations that believe this and are willing to take such risks are hard to find. We will be grateful to learn that you are stepping up.

Here is what you can do:

- 1) Fill your mind and heart with prayer, new knowledge, and conversations with your friends and on this website.
- 2) Join the Family Support Team and support the clergy family with your finances, prayer, and advice.
- 3) Contribute financially to the Faith House project.
- 4) Consider making a real-estate investment that would serve this ministry
- 5) Consider making a legacy investment for this ministry

[This website has all the links you need.](#)

Most importantly, get on board right now. This movement of God needs you as early as possible when well-wishers are many and visionaries are few.
